and storage space

Over
30
million euros
of stock

More than
3.000
clients
in the world

An industrial group
that **produces, stocks and distributes**
all over the world

Beck Industries

The Beck Industries group is currently amongst the **world leaders in high integrity bolting production** for the energy, oil and mechanical industry sectors.

Almost a century after it was created, Beck Industries is still a family business, faithful both to its will for industrial control, and to its **innovating and service culture**.

Each Beck Industries site produces, stocks and distributes its own products in close proximity to its clients. This organisation, which is ingrained into our DNA, guarantees the quality and availability of many references, whatever the circumstances.

High integrity bolting offer

STANDARDISED BOLTING

We have the capacity to produce a wide range of products meeting the ASTM, DIN, ASME, RCCM, ANSI, AFNOR or EN standards: threaded rods, nuts, screws, pins, caps, couplings, etc. and in a wide range of materials: carbon steels, stainless steel, nickel alloys, duplex and super-duplex, non ferrous, etc.

CUSTOM BOLTING

We can produce any type of part, including tie rods, couplings and specialised washers according to your drawings and specifications.

TIGHTENING TOOLS

Beck industrie's Beck Tight brand designs and produces hydraulic or mechanical extension tightening solutions: nuts and stretchers.

One step
ahead

to better tighten
performance

Quality is a priority issue, because our clients manage installations that entail a risk to populations and the environment. We have built our business model on this requirement, while guaranteeing the competitiveness of our offer on the international market.

CONTROLLED QUALITY

Our control of quality is firstly founded on the capitalisation of our wide-ranging industrial know-how: the internalisation of processes and tools, along with safety and risk management culture.

THE BEST IN INNOVATION

To optimise our efficiency, the reliability of our processes, products and services, we have implemented a continuous improvement program: participative management, rewards for innovation, massive investments in training and leading edge equipment on all our sites.

A SENSE OF SERVICE

We will always try to establish a long term relationship with our clients based on feedback, the sense of responsibility, reliability and the proactive implementation of solutions: the search for technical solutions, bundled offers, continuous improvement programme.

TEAM SPIRIT

As a family-owned industrial group, we build our future success on the long term trust we have nurtured with our employees: positive management, transparency, loyalty, ethics and the business's environmental and societal responsibility acknowledged by all.

International locations

The 9 Beck Industries production sites have a significant proportion of export sales. Our sites guarantee you a competitive and quality service wherever you may be.

One-day shipping anywhere in the world

We have a flexible production and storage facility capable of managing your emergencies: shipping in 24 hours.
